We're lookin' good!

Performing Rights Organization of Canada Limited, formerly BMI Canada Limited, is this country's largest performing rights organization. We have affiliated with us more than 9,300 writers, composers and music publishers.

It is our job to license and collect performance royalties from the "users" of music — such as film theatres, arenas, clubs, broadcasters, concert halls. These royalties are then distributed to the people who *create* music: the writers, composers and publishers.

Through international agreements we also license in Canada music from outside our borders. Take last year, for example. *Variety* has issued its list of "Big Rental Films of 1977". This reflects the films' U.S. and Canadian rentals accruing to the distributors.

Of the top 13 on the list, we mention 11 here:

Star Wars
Rocky
Smokey and the Bandit
A Star Is Born
King Kong
The Deep
Close Encounters of the Third Kind
In Search of Noah's Ark
The Spy Who Loved Me
Oh, God
A Bridge Too Far

Recognize any titles? We do! We license in Canada all or some of the music in each one.

Cut it short

Ideal for those small spaces... this table is only 43" wide. Yet it's a complete 16 mm editing machine with 6-plates consisting of 2 sound and 1 picture track. This machine also offers edge or centre track heads. 12-watt amplifier and speaker. Counter in footage or minute/seconds. Or choose the model with table top extensions for added convenience. It has motor driven rewinder for winding intermediate cuts (up to 500' approx.) and an additional sound head for 16 mm mag. film for manual operation. So when you have to cut 16 mm and you don't have a lot of space... cut it short. Choose a Steenbeck ST1900... the complete editing machine.

CAPAC: KEEPING SCORE FOR CANADIAN FILM MUSIC

CAPAC is Canada's largest and longest established performing rights organization. It's been around for over 50 years — a lot longer than the film business in Canada! Its main job is to collect performing rights royalties from the people who use music, and distribute the money to the people who compose and publish it.

CAPAC composers and publishers produce nearly all the music for made-in-Canada motion pictures (and for the majority of Canadian television shows, too). And many of CAPAC's 6,500 members are commissioned to write scores for films made in Europe and the United States.

The list we've printed here? Just a handful of the hundreds of films for which some of our members have written the music. We're proud of them — and we're keeping score of their credits.

The Canada Council, created by an Act of Parliament in 1957, revised in 1976, to promote the arts, carries out its work mainly through a broad program of grants. The Council also shares responsibility for Canada's cultural relations with other countries, and administers the Canadian Commission for Unesco and special programs financed by private donations. The Council reports to Parliament through the Secretary of State and appears before the Standing Committee on Broadcasting, Films and Assistance to the Arts.

Film Production Grants

Applicants must have produced at least one film or have established a professional reputation in the visual arts. Applicants must provide supporting footage in the same millimetre format to be used in the proposed production.

Applicants receiving assistance from other federal film agencies are not eligible for Canada Council grants for the same project.

The maximum amount available for a single film production is $25,000 to cover total or partial production costs. Applicants receiving $15,000 or more may reapply for supplementary funds for a total not exceeding $25,000.

Applications for amounts exceeding $10,000 must be received by a certain date in order to be considered at the next Canada Council meeting: March 15 for announcement in June; June 15 for announcement in September; September 15 for announcement in December; December 15 for announcement in March.

Other grants

Filmmakers may be eligible for assistance through other grant programs administered by the Canada Council. These include: Senior Arts Grants; Arts Grants; Short Term Grants; Project Cost Grants; Travel Grants; Video Production Grants; Long-term Grants for Writers; the Explorations Program.

Objects and Powers

(1) The objects of the Corporation are to foster and promote the development of a feature film industry in Canada, and without limiting the generality of the foregoing, the Corporation may, in furtherance of its objects,

a) invest in individual Canadian feature film productions in return for a share in the proceeds from any such productions;

b) make loans to producers of individual Canadian feature film production of Canadian feature films; and

c) advise and assist the producers of Canadian feature films in the distribution of such films and in the administration functions of feature film productions.

(2) For the purposes of the CFDC Act, a "Canadian feature film" or "Canadian feature film production" is a feature film or feature film production in respect of which the Corporation has determined,

a) that the completed film will, in the judgment of the Corporation, have a significant Canadian creative, artistic and technical content, and that arrangements have been made to ensure that the individual and that arrangements have been made to ensure that the copyright in the completed film will be beneficially owned by an individual resident in Canada, by a corporation incorporated under the laws of Canada, or a province, or by any combination of such persons; or

b) that provision has been made for the production of the film under a co-production agreement entered into between Canada and another country.

(3) The Corporation shall not be regarded as a partner in any film production in which it may invest and its liability shall be limited to the amount of its investment in the production.

(4) The Corporation shall, to the greatest possible extent consistent with the performance of its duties under this Act, consult and cooperate with departments, branches and agencies of the Government of Canada and of the governments of the provinces having duties related to, or having aims or objects related to those of the Corporation.

Programs

The Corporation assists Canadian feature film producers by investing up to $200,000 or 50 percent of the budget of a film, whichever amount is less, in projects that meet its criteria on Canadian content, financing, completion and distribution.

The Corporation's Special Investment Program provides an opportunity for filmmakers to demonstrate their talents in a first feature film. The maximum budget for films submitted under this program is $160,000 with the Corporation's participation being 60 percent.

The Corporation assists Canadian distribution companies by supplementing their budgets in the launching of Canadian feature films released in Canadian theatres.

The Corporation assists Canadian feature film producers in developing screen plays. Its investment could cover the cost of securing an option on a Canadian novel, retaining an experienced screen writer and certain other expenses relating to the project.

Co-Productions

Since February 1976 the CFDC has been designated by the Secretary of State as administrator of co-production treaties between the Government of Canada and participating countries. Canada has co-production agreements with the United Kingdom, France and Italy. A co-production treaty with West Germany is expected to be finalized by the spring of 1978.

The treaty with France specifies a percentage limit of 80:20 for the proportion of involvement between the majority and minority partners in the co-production. The agreements with the United Kingdom, Italy and Germany specify 70:30.

The terms of the co-production require that the artistic and technical input of each country, as well as the financial participation, should reflect its proportionate involvement in the film. Also spelled out in each co-production treaty is the minimum participation of the minority partner. The finished film is considered a national film by both countries.

As administrator, the CFDC receives all applications, studies and evaluates them and makes recommendations to the Secretary of State. When a film has been completed, the producer must provide an audited statement of costs and screen the film, after which a final recommendation is made to the minister. All co-production applications are forwarded to Joe Beaubien and Pete Legault at the CFDC's Montreal office.

The Ontario Arts Council offers various forms of assistance in film areas to artists in the provinces, and the following brochures are available from its offices:

Film and Photography Grants

Filmmakers may apply for up to $7,000 for short, experimental, original 16mm films (full-time students are not eligible). Senior grants up to $20,000 are available to experienced filmmakers. All applications must be supported by a 16mm film.

Writers may apply for up to $3000 to write original, creative material for the screen.

Sponsors of a film festival or seminar may apply for funds to cover fees of visiting filmmakers to participate in workshops and to lead discussion groups, and to cover a portion of administrative costs.

Arts/Education Grants

A filmmaker wishing to work in a school is required to conceive the project, find a school and negotiate a fee. The filmmaker and the school make a joint application for a grant of up to three-quarters of the filmmaker's fee, plus project expenses if the project is more than 100 kilometres from the filmmaker's home.

A Guide to Grants

This brochure contains useful overall information on the who, what and how of applying for OAC grants.

AMPIA consists primarily of 20 active member companies — corporations engaged in the production and processing of motion pictures. Associate members are individuals engaged in the arts and crafts of the industry or with a special interest in film & VTR. Corporate affiliate members are firms and institutions with special interests in film (for example, manufacturers and suppliers). A monthly bulletin, in English, goes to members and associates. Seminars and workshops (e.g., the Banff Seminar) are held several times a year; and the association sponsors an annual film festival.

Pioneer Of The Year Award:
In 1952 the C.P.P. marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre — the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montreal, A.J. Mason of Springhill, Nova Scotia, L. Ernest Ouimet of Montreal, and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and Schulberg, Ganetakos and Allen have died since.

The next year, the Pioneer of the Year Award was inaugurated. Those who have received it to date are:

Motion picture theatres throughout Canada have paid annual licence fees to CAPAC for more than 50 years. The right to charge music performance fees, on behalf of composers, authors and music publishers, has been upheld by the courts.

The licence fees which CAPAC may lawfully sue for or collect must be approved each year by a Board appointed by the Government of Canada. An extract from the Canada Gazette showing the 1978 licence fees is as follows:

Tariff No. 4 Theatres

For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seats	Rates per seat per annum
499 seats and under	10¢
500 to 799 seats	12¢
800 to 1,599 seats	15¢
1,600 seats and over	20¢

The seating capacity of drive-in theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.

Theatres operating three days or less per week shall pay one-half of the above rates.

For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.

Minimum fee — $10.

A licence obtained under this item of the tariff shall not be deemed to authorize any concert or stage show when the exhibition of one or more films is not an integral part of the program. Concerts or stage shows in theatres not coming within the aforesaid classification shall be licensed under item No. 11 of the tariff.

Aims and Objectives

The Council of Canadian Filmmakers is an umbrella organization which represents, through its individual and organization members, 14,000 film directors, writers, actors, technicians, and production personnel in the English Canadian film and television industry.

CCFM was formed in March, 1973 in response to the growing problems of the film industry. Speaking on behalf of its members, CCFM has presented numerous briefs and interventions to all three levels of government in Canada, and has spoken out in public and private forums on the need to improve the situation of the English Canadian film industry.

In the past year, CCFM has continued to press for legislated quota and levy systems to ensure that Canadian films have reasonable access to Canadian theatres, and to ensure that a reasonable percentage of Canadian box office earnings are returned to Canadian production. The Council has also undertaken extensive research in the area of Pay-TV.

The objective of the Council of Canadian Filmmakers is to promote the development of an indigenous English Canadian film industry by: (1) informing government and the public of the situation in the film industry in English Canada; (2) presenting a unified industry voice in negotiations with government, in public forums and in the press; (3) lobbying for the conditions which will make an indigenous film industry viable in Canada.

Each motion picture theatre in Canada, whether individual or a chain, is obligated to pay to Performing Rights Organization of Canada Limited an annual licence fee for the right to perform music in its repertoire, or the repertoires of foreign performing right organizations represented in Canada by P.R.O. Canada. The licence fees have been collected from theatres on behalf of writers, composers and music publishers since 1966.

The fees collected must be approved annually by the Copyright Appeal Board in Ottawa. The courts uphold the fact that it is unlawful to operate a motion picture theatre in Canada without a P.R.O. Canada licence for the performance in Canada of its dramatico-musical works during the calendar year 1978. Tariffs are printed in "The Canada Gazette" and the one pertaining to theatres is:

THEATRES

For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seating Capacity	Annual Fee
Up to 499 seats	$12.00
500-999 seats	24.00
1,000 seats and over	42.00

The seating capacity of Drive-In Theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.

Theatres operating three days or less per week shall pay one-half of the above rates.

For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.

Minimum fee, $10.

A licence obtained under this item of the tariff shall not be deemed to authorize any concert, recital of classical music or live performance when the exhibition of one or more films is not an integral part of the program. These performances shall be licensed under Item Number 5 of this tariff.

The following year Conn Smythe, president of the Maple Leaf Baseball Club was similarly honoured. Variety in Action

All funds raised by Variety Clubs are utilized by local charities in the area where the funds are generated. In Ontario, Tent 28 raised and allocated close to $700,000 in 1977. Fund-raising projects included an Annual Bike-A-Thon, a Bingo operation, Annual Gourmet Dinner, and a Golf Tournament, among many others.

In 1977, when Toronto was awarded an American League baseball franchise, the Toronto Blue Jays designated the Variety Club as their charity. The Variety Club in Ontario is host to a "Baseball's Back In Town" dinner on the eve of opening day. There are at present fifteen Variety Sunshine Vans in operation in Ontario, which are custom-built according to the disability of the children to be transported.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,000 motion picture craftsmen.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders for cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theater, Margaret Herrick Library, Administrative and Publications offices.

Advertising annually in the YEARBOOK promotes and supports our industry all year round. Invest part of your advertising budget in the YEARBOOK.

Film works both sides of the lens.

Film is good business, from both sides of the camera. Kodak continues to promote the strength of using film as a corporate communications tool to the Canadian business community. That's one side. And we're on your side too, not only because we produce high-quality film products and processes, but we also continue to promote the communication advantages of film to businesses.

As part of this promotion, Kodak had a film produced on behalf of the motion picture industry about making corporate films and we will be showing it to as many business people and groups as possible.

This production "Film is Good Business" is available to film producers at nominal cost. To arrange a complimentary screening, contact your local Kodak Technical Sales Representative or write Kodak Canada Ltd. for more information.

I would like to see the Kodak film about making films.

In the beginning...

...you shoot the picture, record the sound. In the end, all you want to see and hear is the picture the way you shot it, the sound the way it should be. No wild reds or weird greens. No hisses or muffles.
Producers and directors across the country, around the world come to Quinn Labs and Mirrophonic Sound for this quality. Quality they've come to expect and will accept only.

In the end...

...the people at Quinn lovingly process your film. Cut your negatives as caringly as you would yourself. Perform minor miracles with computerized video tape editing, 2", 1" and ¾".
The people at Mirrophonic provide the ideas and the expertise to make your tracks swing with your pictures. Together the people at Quinn and Mirrophonic make a very productive team. Fast, efficient, effective. In the beginning it is your commercial, your feature film. In the end it is our track record that can bring it all together. Beautifully.

Any persons (not necessarily film editors) deemed worthy of such membership by unanimous approval of the National Executive. Honorary Life Members, who have previously been members, are entitled to vote in the business of the Guild.

Members who retire from the Guild, for whatever reason, are not entitled to use 'cfe'.

The Canadian Film Editor

Usually, at least four issues per year are published and a copy is sent to each member with additional complimentary copies placed in various laboratories, sound studios and optical houses for general interest. Copies are also available on subscription.

CANADIAN SOCIETY OF CINEMATOGRAPHERS
22 Front St. W.
Toronto, Ont. M5J 1C4
(416) 363-4321

The Canadian Society of Cinematographers was founded in 1957 by a group of veteran cinematographers from Toronto, Montreal and Ottawa. It is the only organization in Canada that represents the interests of cinematographers exclusively.

Its aims are:

1. To promote and foster cinematography in Canada.
2. To develop and promote the interests of Canadian cinematographers.
3. To provide membership with technical and other information for the improvement of their knowledge, work and status.
4. To function towards the achievement of these purposes free from all partisan political, labour-management and other issues not related to these stated aims.

For over eighteen years, more than 240 cinematographers and assistant cameramen have become members of the Canadian Society of Cinematographers. The Society founded the magazine "Canadian Cinematography" which later became "Cinema Canada" and now, published independently, is considered Canada's foremost film magazine.

Members of the Society have always been very active participants at meetings of the Canadian Film Awards, the Canadian Film Development Corporation, the Society of Film Makers and other groups in the film community.

Through meetings held on the first Monday of each month, September through May, the executive strives to have interesting and informative discussions on current and new equipment, new techniques and problems that may affect professional cinematographers.

Several members are instructors at universities and colleges across Canada and the Society periodically organizes special classes for assistant cameramen and others interested in learning the essentials of cinematography.

By active and financial support to the CSC, professional cinematographers are able to make their collective voices heard when problems arise in the film industry and possibly find mutually acceptable remedy.

Each year the CSC holds an awards function and trophies are presented, to members only, in the following categories:

Feature/TV Drama	CSC Award
Documentary	CSC Award
TV Commercials	CSC Award
News	Roy Tash Award

In addition, and not necessarily each year, the Bill Hilson Award (a miniature Arriflex) is presented to a member of the CSC who has performed outstanding service to the Society or has made a special contribution to the art of cinematography. Also, members have won international recognition and awards including the coveted 'Oscar.'

MEMBERSHIP

Membership in the CSC is divided into the following categories:

Affiliate Membership

The applicant must be professionally employed as an assistant cameraman or camera operator or be active in a field directly related to cinematography such as teaching or studying cinematography at a recognized Canadian institution of learning. Affiliate members have no voting privileges and are not permitted to serve on the board of directors. They have the right, and are encouraged to attend, all membership meetings and may serve on committees.

Associate Membership

The applicant must be professionally employed as a cinematographer or camera operator for a period of at least three years. Teachers of cinematography may be considered for this category provided they have sufficient previous practical experience. Affiliate applicants must be in good standing.

Full Membership

The applicant must be professionally employed as a cinematographer for a period of at least ten years and must also be fully qualified to assume the responsibilities of Director of Photography. Alternatively, the applicant must have to his credit, exceptional achievement as a cinematographer. Only full members are entitled to use the initials 'CSC' after their names on screen credits, correspondence and stationery. Full membership is not automatically acquired after ten years nor does the ten-year limit always apply. Full membership is granted only after the membership committee has screened an applicant's film examples which must show an ability to light interiors and exhibit a high standard of excellence. Full membership applications are reviewed once annually and are granted only upon unanimous approval of the board of directors. Associate applicants must be in good standing.

Honorary Membership

Honorary membership may be awarded by the membership committee to Canadian laymen who have promoted, or are promoting, through their efforts, the interests of cinematography in Canada. Honorary members are not active, as such, in the regular business of the Society.

Life Membership

Life membership is awarded by the board of directors to members who have retired from active cinematography and who have been particularly valuable to the Society in the past. Membership is retained without payment of dues.

A LIST OF MOTION-PICTURE TECHNICAL TERMS IN FIVE LANGUAGES

Initiated by Carlos Connio Santini

Standardization of international usage in motion-picture language may not be possible, but mutual understanding of the technical terms used in the industry, in those language areas where its principal activities are carried on, is a worthy goal. The basis for this list was contributed by the late Mr. Santini with no claim to its being definitive; in compiling it, however, he tried invariably to choose the term most generally accepted in each language. Readers' comments and additions to the current list will be welcomed.
